NASA selects Puerto Rican educators for summer training on Artemis project and return to the Moon

San Juan, PR, April 29, 2022 - The Astronomy Society of Puerto Rico Inc. (SAPR), an organization endorsed by the NASA Puerto Rico Space Grant Consortium, confirms that this week four Puerto Rican educators were selected by the NASA Texas Consortium to participate in the LiftOff Summer Institute 2022: "The Artemis Generation!" training, where they will be in contact with leading scientists and engineers in the current space exploration for the return of humans to the Moon.
