The Arecibo Observatory will host tomorrow, May 2nd at 1:00pm in its Visitor's Center, Dr. James Madsen, Physics professor from the University of Wisconsin. Dr. Madsen will offer a conference entitled *Science at the Extremes: The IceCube Neutrino Observatory*, open to the public, about the Observatory and how it studies the universe. The Observatory is located 1-1.5 miles underneath the surface of the South Pole in the Amundsen-Scott South Pole Station.

For more information, please call 787-878-2612 or visit <http://www.naic.edu> [2] for directions to the Observatory.
