Investigaciones realizadas por dos estudiantes de la Universidad de Puerto Rico en Humacao (UPRH) recibieron reconocimiento en la Conferencia Anual de Investigación Biomédica para Estudiantes Minoritarios. (Suministrada)

Two students from the Biology Department at the University of Puerto Rico, Humacao Campus were awarded for their research presentations at the Annual Biomedical Research Conference for Minority Students (ABCRMS) during November in San Antonio, Texas.

Giovani Deliz, junior in the General biology program and Raiza Reyes, junior under a Microbiology major were recognized along another 11 students among 1700 participant students. ABCRMS is one of the biggest research conference for underrepresented minority students and is funded by the American Society of Microbiology under an NIH grant.
