

Schedule for Cambiowebiar Series 2015 ^[1]

Submitted by [Monica Vega Hernandez](#) ^[2] on 1 February 2015 - 4:00pm

CAMBIOWEBINAR

Cambridge Biology Webinars

Look our website at: <http://cambiowebinar.wix.com/home>

February 5

Accessing Ensembl Genomes

Speaker, Emily Perry

Ensembl Team, Sanger Institute, Wellcome Trust

February 27

Hepatic Organoids

Speaker, Meritxell Huch, PhD

Gurdon Institute, Wellcome Trust

March 10

Embryonic Epigenetic Reprogramming

Speaker, Jamie Hackett, PhD

Gurdon Institute, Wellcome Trust

March 26

1000 Genomes

Speaker, Laura Clarke, PhD

1000 Genomes, Sanger Institute, Wellcome Trust

April 16

Super Resolution Imaging

Speaker, Martin Lenz, PhD

Cambridge Advance Imaging Center

BIOLOGY WEBINARS

broadcasted from the University of Cambridge in UK
by Cambridge scientists brought to a remote audience at
universities in Puerto Rico.

Cambiowebinars is a project that broadcasts live biology seminars to remote audiences in universities in Puerto Rico and individuals via livestream. The speakers from the University of Cambridge in UK volunteer their time to disseminate their science. The topics are diverse but focus on recent discoveries or technology.

Each seminar has a designated contact in Puerto Rico that organizes the audience in a variety of local universities. In the past we have been able to reach audiences in UPRM and RCM-UPR. The seminars are open to the public but crafted specially to researchers, graduate and undergraduate students.

The seminar series for this semester includes:

Date	Topic	Speaker
Feb 5	Accessing Ensembl Genomes	Emily Perry
Feb 27 PhD	Hepatic Organoids	Meritxell Huch,
Mar 10 Hackett, PhD	Embryonic Epigenetic Reprogramming in Mouse	Jamie
Mar 26 PhD	1000 Genomes	Laura Clarke,
Apr 16 PhD	Super Resolution Imaging	Martin Lenz,

All seminars are at 10:30 am AST (14:30 GMT)

To participate please subscribe to our newsletter using this link, (<http://cambiowebinar.wix.com/home#!contact/ct07> ^[3]). Once subscribed the information of the place, and the livestream link will be provided by email.

Our website, (<http://cambiowebinar.wix.com/home> ^[4]), provides all information regarding current and past seminars, including a collection of recordings from the previous seminars online.

Cambiowebinar is a non for profit project that aims to increase the scientific conversation in Puerto Rico and to encourage collaborations with Europe.

Please feel free to download here (<http://cambiowebinar.wix.com/home#!current-flyer/crob> ^[5]) the flyer with the schedule of the coming seminars.
