Tres imágenes de radar del Asteroide 2011 UW158 mostrando su rotación en 4 minutos. Cada pixel es igual a 7.5 m (25 pies) de distancia. La superficie del asteroide parece como una nuez con surcos paralelos a lo largo del cuerpo.

Arecibo Observatory reveals detailed pictured of Asteroid (436724) 2011 UW158. This asteroid passed nearearth at a distance of 7 million miles.

The original article is available in Spanish.
