Jóvenes leen el libro Ciencia Boricua, una de las iniciativas por las cuales CienciaPR fue reconocida por la Casa Blanca.

CienciaPR participated (via Google Hangouts on Air) of a conversation on STEM education with Bright Spots in Hispanic education across the U.S. Last Hispanic Heritage Month, CienciaPR was one of 230 Bright Spots [3] recognized by the White House for their efforts to improve education for Latinos.

During the conversation several representatives of the organization talked about our initiatives and programs. You can watch the video here in English):
