Los aceites de citronela funcionan como repelente de mosquitos. (Suministrada)

El Aedes aegypti is the vector for viral diseases such as: dengue, chikungunya and zika. Although there are manufactured products that can be used to repel mosquitoes, some prefer the use of naturally occurring oils from plants. Various botanical oils have proven effectiveness as mosquito repellents, such as the Ylang ylang (*Cananga odorata*), citronella (*Cymbopogon nardus*) and "lemon grass" (*Cymbopogon citratus*).
