La investigación, que lleva por título Descubrimiento de Fármacos Inhibidores de la Proteína N-WASP en Células Metastáticas de Cáncer de Seno, fue subvencionada con una cantidad \$150,000 por año hasta julio 2020. (Archivo / GFR Media)

The National Institute of General Medicine (NIGMS) and the National Institutes of Health (NIH) granted \$150,000 to the University of Puerto Rico (UPR) for a study on pharmaceuticals to block metastatic breast cancer cells.
