The seven companies that are part of the Puerto Rico Agricultural Biotechnology Industry Association (PRABIA) work at full speed in their work, in addition to contributing to the recovery of the country.

A little over a month after Hurricane Maria passed through Puerto Rico, the companies that are part of the Puerto Rico Agricultural Biotechnology Industry Association (PRABIA) are already operating normally and at full capacity, ensuring the continuity of the agricultural biotechnology industry . In addition, the industry remains firm in its commitment to the recovery of the Island, delivering donations and supplies to the communities most affected by the hurricane.
