

Impaired social interactions and motor learning skills in tuberous sclerosis complex model mice expressing a dominant/negative form of tuberin ^[1]

Enviado por [Itzamarie Chevere-Torres](#) ^[2] el 20 enero 2014 - 6:13pm

^[2]

Título	Impaired social interactions and motor learning skills in tuberous sclerosis complex model mice expressing a dominant/negative form of tuberin
Publication Type	Journal Article
Year of Publication	2012
Autores	Chévere-Torres, I ^[3] , Klann, E ^[4]
Secondary Authors	Maki, JM ^[5]
Tertiary Authors	Santini, E ^[6]
Journal	Neurobiology of Disease
Volume	45
Start Page	156
