Profile

Highly determined fourth-year undergrad student at the University of Puerto Rico in Bayamón pursuing a B.S. in Human Biology. Demonstrated interests in medicine, research, biological sciences, and public health. Aspiring to pursue an MD degree to become a future medical professional committed to providing communities and medical professionals valuable information regarding the spread and containment of diseases while recommending effective control measures and motivating others to stay safe and be well.

Education

Universidad de Puerto Rico, Bayamón , B.S. Human Biology

2017 – Present Bayamón

GPA: 3.20

Honors & Societies:

- o Member of the National Society of Collegiate Scholars (2017 – Present)
- o Member of the American Chemical Society – UPRB Chapter (2017 – Present)
- o Vice President of the American Chemical Society – UPRB Chapter (2019 – 2020)

Diploma: Expected in 2022

Puerto Rico Christian School , High School Diploma

May 2017 Toa Baja, Puerto Rico

Experience

Sales Representative, DICO Communications & Promotions

Aug 2017 – Aug 2018 Guaynabo, Puerto Rico

Sales Representative and promoter for brands such as Gatorade®, Propel®, and LifeWater®.

Hydration Technician – giving samples of Gatorade® and Propel® to athletes during 5k, 10k, half-marathons, marathons, triathlons, and Ironman® races, assuring each athlete is hydrated in a timely manner.

Volunteer, Pediatric Hospital Foundation

Aug 2019 – Present San Juan, Puerto Rico

Registered in the Volunteer Program from one of the most important medical institutions for children and young people in Puerto Rico,

Reached balance between the studies and the required volunteer activities:

- Organization and distribution of donations
- Participation in different programs for patient and caregiver support

- Collaboration in fundraising and promotion events of the Pediatric Hospital Foundation

Ensured that all my activities complied with the rules and regulations set by the Pediatric Hospital, federal laws, and specifically by HIPAA.

Summer Intern, Intercollegiate Neuroscience Research Journal Club (INRJC)

Jun 2020 — Present  LinkedIn Group

Research opportunity that allowed me to access the recent neuroscience-related research papers.

Leveraged a network with global college students through a virtual team environment.

Enhanced the ability to accurately 'read' the audience, writing skills, articulate presentation of ideas, engage presence and style, ability to discuss topics while respecting others' ideas, and improved knowledge of presentation technology and online tools.

Certificates

Johns Hopkins University – Bloomberg School of Public Health

Jun 2020

“COVID-19 Contact Tracing”

American Chemical Society – Puerto Rico Local Section – UPRB Chapter

Sep 2019
