

How to collaborate?

5 WAYS TO SUPPORT GIRLS FROM 7TH TO 9TH GRADE AND FUTURE PIONEERS IN STEM

Seed of Success seeks to inspire 120 middle school girls in Puerto Rico to explore STEM careers. This year we receive the support and collaboration of the IF/THEN Initiative which seeks to advance women in STEM by empowering innovative STEM professionals who can inspire the next generation of pioneers. The initiative has no cost for the selected girls.

INCREASE YOUR IMPACT BY SPONSORING THE SERIES OF ONLINE TALKS "JUNTAS PODEMOS"

We will conduct at least 10 online talks with outstanding women in STEM disciplines who are inspiring examples. The talks will take place from November 2020 to March 2021 and will be open to young people from Puerto Rico and beyond!

DONATE PRIZES FOR THE BEST STEM AMBASSADOR PROJECTS

To become STEM Ambassadors, girls will need to carry out a STEM outreach project that impacts more people in their school and/or community. The best STEM ambassador projects will be awarded at the end of the program. Help us celebrate the achievements of middle school girls through an economic or in-kind donation that rewards their impact. The closing event is scheduled for April 2021.

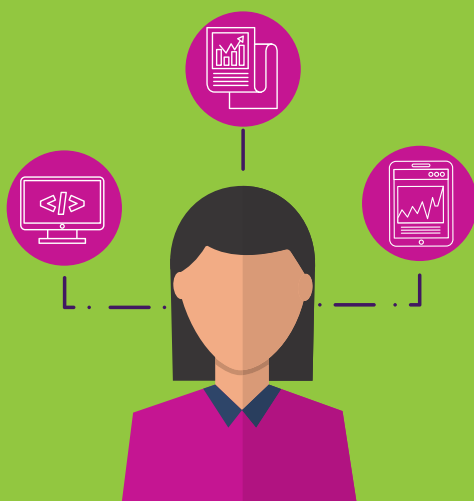

HOST STEM AMBASSADOR PROJECTS

Your organization can serve as host of STEM ambassador projects by using an initiative and/or platform for citizen participation related to STEM disciplines in which one or more girls can serve as a resource, impact your audience and at the same time complete their project. The opportunities will be agreed with CienciaPR and offered to the girls during August 2020. Projects must be completed between October 2020 and February 2021.

INCLUDE YOUR ORGANIZATION IN THE SEEDS OF SUCCESS "KIT"

If you have promotional and/or educational STEM material of interest to 120 middle school girls, we can include it in the Seeds of Success Kit. The girls selected for the program will receive the Kit at their home, between the end of July and August 2020. Your organization will be included as a "In the Box" Contributor, on the CienciaPR portal and its social networks.

CONNECT US WITH WOMEN IN STEM VOLUNTEERS

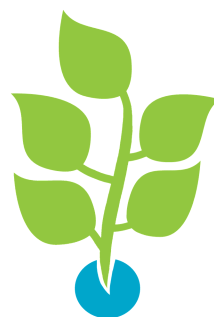

We are recruiting women in STEM areas who wish to mentor the girls or who wish to participate in the scheduled activities. Refer us to women in STEM professionals and/or students in your organization interested in this professional development opportunity. We will invite them to collaborate and guide them on the different possibilities.

Questions & Answers

DO I HAVE TO LIMIT MY ORGANIZATION TO ONLY ONE TYPE OF COLLABORATION?

Of course not! Your organization can choose all the possible ways to collaborate

HOW IS THE COLLABORATION WITH CIENCIAPR FORMALIZED?

CienciaPR will coordinate the collaboration points with your organization and will send a Collaboration Agreement to be signed by the authorized representative. This applies only to alternatives 1, 2 and 3.

HOW WILL OUR CONTRIBUTION TO THE PROGRAM BE RECOGNIZED?

The collaborators and sponsors of Seeds of Success will be recognized on our portal, social networks and communications that take place during the 2020-21 cycle. Collaborators are invited to highlight their contributions to the project through their own communication platforms in coordination with CienciaPR.

CAN I SUGGEST OTHER ORGANIZATIONS TO COLLABORATE?

Por supuesto. Envíales esta información y el enlace para el Formulario de Colaboradores. Agradecemos tu colaboración.

WHO SHOULD I CONTACT IF I HAVE OTHER QUESTIONS?

You can communicate by email with Dr. Greetchen Díaz to: gdiaz@cienciapr.org

For other questions about the Program contact: semillas.triunfo@cienciapr.org

**WE THANK
THE SUPPORT!**
