

The keynote speakers will be:

Leo Anthony Celi, MD, MS, MPH, an internist, an intensivist, and an infectious disease specialist, who has focused his research on the secondary use of clinical data for quality improvement. He directs an organization called Sana (www.sana.mit.edu) at the Computer Science and Artificial Intelligence Laboratory (CSAIL) at the Massachusetts Institute of Technology. Dr. Celi holds a faculty position at Harvard Medical School as an intensivist at the Beth Israel Deaconess Medical Center.

Patricia Garcia, MD, MPH, PhD, is the Dean of the School of Public Health and Administration at Cayetano Heredia University (UPCH) in Lima, Peru, and former chief of the Peruvian National Institute of Health. Dr. Garcia is an affiliate professor at the University of Washington Department of Global Health. She was recently elected president of the Latin American Association Against Sexually Transmitted Diseases.

Lucila Ohno-Machado, MD, MBA, PhD, is Associate Dean for Informatics and Technology, and the founding chief of the Division of Biomedical Informatics at UCSD. Prior to her current position, she was faculty at Brigham and Women's Hospital, Harvard Medical School and at the MIT Division of Health Sciences and Technology. She directs the NIH-funded iDASH National Center for Biomedical Computing.

Gabriel Kreiman, PhD. Received his Ph.D. in Biology from the California Institute of Technology. His Post Doctoral studies are in Computational Neuroscience at MIT. He has been affiliated with the Division of Neurosurgery at UCLA. He did his post-doctoral training working with Prof. Tomaso Poggio at the McGovern Institute for Brain Research, Department of Brain and Cognitive Sciences, Massachusetts Institute of Technology. He is currently an Associate Professor at the Harvard Medical School.

Dr. Carol Hullin, is the e-Health Lead at the World Bank. She is a qualified health informatician from the University of Melbourne, Australia. She has worked as a practitioner providing direct clinical care for over two decades in the Latin American & Australian health systems. She is also a leader in the discipline of health informatics, with her last public project being HealthSmart of Australia, a \$400M investment to leverage ICTs in healthcare facilities of 43 sites for 5 million citizens.

Symposium on Health Informatics & Hacking Medicine

Confirmed Speakers

Jamaica:
University of Technology in Jamaica
Tyrone Grandison, PhD
White House Innovation Fellow,
IBM Master Inventor

Colombia:
University of Pittsburgh
Medical Center
Juan Carlos Puyana,
Surgeon

Puerto Rico:
University of Maryland
College Park
Héctor Corrada, PhD
Bioinformatics Researcher

Partners:
