2nd Puerto Rico Cell Signaling Meeting 2015

Friday, April 10, 2015

The Condado Plaza Hilton, San Juan, PR

8:00 am – 5:00 pm

This meeting presents current research in cell signaling and promotes collaborations among scientist. It is open to basic and clinical investigators, graduate and undergraduate students currently working in the field of cell signaling.

DEADLINES:

Abstract Submission
March 13, 2015
Prizes for the three best posters

Registration
April 1, 2015

REGISTRATION FEE:
Students – Free
Others - $50.00

For more information, online registration and abstract submission:

Sponsored by:

Speakers:

Sylvette Ayala-Torres, Ph.D.
Department of Pharmacology and Toxicology, UPR-MSC
Title: The rhesus monkey as a model of translational research age-related disease

Frances García, M.D.
Chair, Institutional Review Board (IRB), UCC
Title: Research ethics applied to the elderly

José García-Arrarás, Ph.D.
Department of Biology, UPR-Rio Piedras
Title: Signaling pathways associated with intestinal regeneration in Holothuria glaberrima

William D. Hill, Ph.D.
Department of Cellular Biology and Anatomy
Georgia Regents University
Title: Epigenetic based changes in mesenchymal stem cell (MSC) function with aging.

Carlos M. Isales, M.D.
Department of Cellular Biology and Anatomy
Georgia Regents University
Title: Impact of aging on nutrient-induced signaling pathways in mesenchymal stem cells

Martha Soto, Ph.D.
Department of Pathology, Rutgers University
Title: WAVE after WAVE: how actin polarization is initiated and maintained for embryonic and neuronal health
