

# Neuroscience Seminars Series @ UCC

---

May 12

## Deciphering Neural Connectivity and Function with Neurotropic Viruses

Esteban Engel, PhD. Director of the Viral and Genetic  
Neuroengineering Laboratory, Princeton Neuroscience Institute

---

May 19

## Powering the Brain: The Glycolytic Metabolon and its Role in the Synaptic Vesicle Cycle

Daniel Colon-Ramos, PhD. Associate Professor  
Yale School of Medicine

---

May 26

## Endocannabinoid Signaling and Synaptic Plasticity

Pablo E. Castillo, PhD, Professor  
Albert Einstein College of Medicine, New York

---

**11:50 am – 1:00 pm**

**Room 103**

**School of Medicine**

**Universidad Central del Caribe**

**Av. Laurel, Santa Juanita, Bayamon, PR**

**Sponsored by The Specialized Neuroscience Research  
Program (SNRP) at Universidad Central del Caribe**
