

The University of South Florida-Tampa, Florida

Research Experience for Undergraduates in Applied Physics – Summer 2014

Research opportunities in Materials Physics, Biomedical/Biophysics, Atomic, Molecular & Optical Physics/Sensors, Computational & Theoretical Physics

Program highlights:

- May 28 – Aug 6, \$4000 stipend /10 weeks
- On-campus housing, travel allowance
- Individual research projects specifically designed for students with limited prior research experience
- Special professional development program to facilitate learning of research methods and lab skills, critical thinking, organizational, oral and written communication skills
- Enjoyable and meaningful social and cultural program
- Focus on attracting students from undergraduate institutions and groups underrepresented in science and engineering

Applications will be reviewed beginning on March 24, 2014.
Positions will remain open until filled.

For more information, including on-line application, visit the REU website <http://physics.usf.edu/>

Dr. Sarath Witanachchi, REU Directors
