Have you applied for the 2022 SACNAS NDiSTEM Conference?

If so, consider applying for Geo-Futures!

GEO FUTURES

About the Program

Geo-Futures is a conference-based program funded by the National Science Foundation (NSF), set within the annual SACNAS National Diversity in STEM Conference. The Geo-Futures program provides participants with mentoring before, during, and after their experience at SACNAS, and helps them develop a sense of identity and community within the geosciences. Geo-Futures will also assist students as they begin to define their academic and professional pathways through the geosciences, while providing pre- and post-conference training around understanding how to engage in a national research conference.

What We Provide:

- Funding to attend the 2022 SACNAS NDiSTEM Conference
- Pre- and post-conference workshops
- Mentorship and networking opportunities
- Technological support, as needed

Eligibility:

- US Citizen or Permanent Resident
- Undergraduate student in STEM
- Submitted abstract to the 2022 SACNAS NDiSTEM Conference
