

CANCER PREVENTION & CONTROL (CAPAC) RESEARCH TRAINING PROGRAM

SUMMER PROGRAM

What can CAPAC offer you?

- Cancer prevention and control hands-on research experience with a focus on Hispanic health and health disparities.
- 10 week full-time summer internship in Puerto Rico hosted by the University of Puerto Rico Comprehensive Cancer Center.
- Participants are matched to a mentor based on their research interest in basic, clinical, and population-based research.
- Engage in a research project and complementary educational and professional skill building activities.

Program Requirements

- ✓ Master level graduate students (i.e., public health, biomedical sciences, etc.) or
- ✓ Health professions students (i.e., Medicine, Pharmacy, Nursing, etc.) or
- ✓ Recent graduates of these programs (last 12 months)

PROGRAM DATES

Standard program dates run from
MAY 28 - AUGUST 2, 2024

STIPEND AND OTHER SUPPORT

Trainees receive a financial stipend, travel, and housing support.
