

The Department of Biology at the University of Vermont (UVM) is seeking applications for a tenure-track Assistant Professor in Cell Biology, to begin in the fall of 2024. Successful candidates will address important questions in cell biology and contribute to neuroscience research and education at undergraduate and graduate levels. Research using non-mammalian model systems and/or cell culture systems are particularly encouraged.

All applicants are expected to: 1) hold a Ph.D. degree in biology or in a related discipline; 2) have two or more years of postdoctoral experience; 3) develop a competitively funded research program; 4) teach undergraduate and graduate courses ranging from general biology to an area of the candidate's expertise; and, 5) mentor and advise undergraduate and graduate master's and doctoral students, in addition to professional contributions and service.

Candidates must apply online at www.uvmjobs.com. Search for the position using department name (Biology) only. Candidates are asked to include:

- a curriculum vitae;
- two representative publications;
- a statement of research focus;
- a teaching statement describing approach, philosophy and interests; and,
- the contact information of three references. The reference providers will be emailed information to upload their letters.

The UVM Biology Department is a vibrant and broad, basic science department whose faculty members' research and teaching spans a range of core disciplines including biochemistry, cell biology, genetics, neuroscience, ecology, and evolution. The department values collegiality.

The College of Arts and Sciences highly values the excellence that results when people from different backgrounds and perspectives work, interact, and learn together. In this way, commitment to diversity fosters our educational mission. For our students, it prepares them for life and work ahead: it recognizes that we are a culturally, ethnically, and racially diverse nation, one that is also situated in an increasingly global environment. For our faculty, scholarship and research are increasingly cooperative activities-often crossing national borders-requiring the abilities and skills to work with others often from very different backgrounds. For both our students and faculty, diversity enhances our curriculum, enriches the classroom experience, and fosters the exchange of ideas. As our society, economy, politics, and global interactions become increasingly diverse, so too must our intellectual community of students, faculty, and staff. UVM is especially interested in scholars who can contribute to the College of Arts and Sciences diversity plan, which was designed in part to ensure faculty, students, and staff members from underrepresented and marginalized populations are an integral part of the life and governance of the institution. Applicants are requested to include in their cover letter information about how they will further this goal.

Review of applications will begin on October 15, 2023, and will continue until the position is filled. Questions may be directed to Jim Vigoreaux: jvigorea@uvm.edu.

The University of Vermont is an Equal Opportunity/Affirmative Action Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, protected veteran status, or any other category legally protected by federal or state law.
