# Ruth Kirschstein Diversity in Science AWARD

Established in 2011, this annual award honors an outstanding scientist who has demonstrated strong commitment to the encouragement of under-represented minorities to enter the scientific enterprise and/or to the effective mentorship of those within it.

## AWARD BENEFITS

- \$3,000 cash
- Travel expenses to present a lecture at the 2015 ASBMB Annual Meeting

## NOMINATION REQUIREMENTS

- Nominations for the 2015 Diversity Award are accepted starting in February, 2014
- Nominations must be submitted by an ASBMB member
- Nominees need not be a member of ASBMB

**2014**  
Freeman Hrabowski and Michael Summers  
University of Maryland Baltimore County

**2013**  
Peter Blumberg  
National Cancer Institute

**2012**  
Lovell A. Jones, MD  
MD Anderson Cancer Center

**2011**  
Arthur Gutierrez-Hartmann  
University of Colorado Medical School

# Research Spotlight on Minority Scientists

The American Society for Biochemistry and Molecular Biology (ASBMB) publishes a monthly online column, Research Spotlight, which highlights the research and career paths of distinguished biomolecular and biomedical scientists from diverse backgrounds. In doing so, the ASBMB seeks to inspire up-and-coming scientists to pursue careers in the molecular life sciences.

Eligible candidates for this column are Ph.D. students, postdoctoral fellows, or young or established faculty and researchers. To read the interviews featured on ASBMB Research Spotlight, visit [www.asbmb.org/spotlight](http://www.asbmb.org/spotlight).
