

The NIH Human BioMolecular Atlas Program (HuBMAP)

2024 HuBMAP Summer Underrepresented Student Internship Program

Are you interested in gaining valuable paid research experience in biomedicine?

WHO WE ARE

HuBMAP is an NIH-funded initiative that will generate 3D tissue maps and construct an atlas of the function and relationships among cells in the human body. These maps and atlas can lead us to a better understanding of how the relationships among our cells affect our health.

The Underrepresented Student Internship Program provides the opportunity for undergraduate students from U.S. colleges and universities to receive mentorship and training from HuBMAP labs over the summer.

WHO YOU ARE

- An **undergraduate student** attending a **U.S. institution** at the time of application
- Majoring in any of the STEM fields with a minimum 3.0 GPA
- Age 17 or older
- A **member of an underrepresented group** in biomedical research (as defined by [NIH](#))

Preference will be given to students who do not have ready access to biomedical (and/or single cell biology) research opportunities at their home institutions.

OPPORTUNITIES IN:

- Wet Lab Protocols and Techniques
- Data Analysis and Visualization
- Programming and AI/ML
- Research Mentoring
- Networking
- Career Development

18+ Labs offering positions across the United States

- Compensation: \$6000 stipend
- Travel/Housing Assistance Provided
- Commitment: Full-time for 10-12 weeks between May 20 - August 16, 2024

INTERESTED IN APPLYING?

Online Application Opens:
November 27, 2023

Application due:
February 1, 2024
