

Neuroscience Seminars Series @ UCC

May 12

Deciphering Neural Connectivity and Function with Neurotropic Viruses

Esteban Engel, PhD. Director of the Viral and Genetic
Neuroengineering Laboratory, Princeton Neuroscience Institute

May 19

Powering the Brain: The Glycolytic Metabolon and its Role in the Synaptic Vesicle Cycle

Daniel Colon-Ramon, PhD. Associate Professor
Yale School of Medicine

May 26

Endocannabinoid Signaling and Synaptic Plasticity

Pablo E. Castillo, PhD, Professor
Albert Einstein College of Medicine, New York

11:50 am – 1:00 pm

Room 103

School of Medicine

Universidad Central del Caribe

Av. Laurel, Santa Juanita, Bayamon, PR

**Sponsored by The Specialized Neuroscience Research
Program (SNRP) at Universidad Central del Caribe**
