

MSK View

A diversity recruitment event
for MSK scientific laboratories

March 15 & 16, 2023

Deadline to apply: **March 1, 2023**
Apply at mskcc.org/diversity-day

Join us for the sixth MSK View, designed to provide senior-level graduate students and early stage postdocs from underrepresented groups insights about training as a postdoc at Memorial Sloan Kettering Cancer Center (MSK).

During this virtual recruitment event, selected participants will:

- learn about the cutting-edge science being conducted at MSK
- meet MSK faculty in one-on-one meeting and roundtables
- hear from current trainees about how they decided to conduct their postdoctoral training at MSK
- receive insights on how to chart their course and navigate career development beyond graduate school and postgraduate training
- present their research and connect with peers

KEYNOTE SPEAKER

Dr. Selwyn Vickers
President and CEO,
MSK

This year we are accepting applications from traditionally underrepresented minority trainees in biology/biomedicine, chemistry, engineering, physics and computational sciences who are:

- PhD and MD/PhD students within 2 years of defending their thesis
- PhD, MD and MD/PhD researchers interested in a second postdoc position

Memorial Sloan Kettering
