

# SCGSR

Office of Science Graduate  
Student Research Program

## SCGSR PROGRAM: GROW YOUR RESEARCH. EXPAND YOUR NETWORK.

The SCGSR program gives you the opportunity to enhance your PhD thesis by conducting research at a Department of Energy (DOE) National Laboratory. This unique chance to harness the expertise, resources, and capabilities of DOE National Laboratories aims to prepare rising research leaders to advance scientific discovery and innovation in areas of critical importance to the DOE Office of Science. As an SCGSR Awardee, you can collaborate with world-class scientists, access cutting-edge facilities and instrumentation, and expand your professional network while discovering opportunities for your future.
