

Summer Internship Program (SIP)

The SIP provides experience in research laboratories to students who have completed 1 or more years of college and are of diverse backgrounds including:

- Underrepresented minority students
- Economically disadvantaged students
- Students from underserved backgrounds
- Students with disabilities

The purpose of this exposure to biomedical and/or public health research is to encourage students to consider careers in science, medicine and public health. The program runs ten weeks and a minimum stipend of \$3,000 is provided. Housing is provided near our undergraduate campus; the University has a shuttle service that provides convenient transportation between the Johns Hopkins Medicine Institutions (JHMI) and the undergraduate campus.

Our current research opportunities include:

- Basic Science Institute (BSI)
- Bloomberg School of Public Health
 - Generation Tomorrow
 - Institute for Cell Engineering
- Institute for Computational Medicine
- Institute for NanoBioTechnology (INBT) Nanotechnology for Biology and Bioengineering Research Experience for Undergraduates (REU)
 - Pulmonary and Critical Care Medicine
- Rosette Commons Research Experience for Undergraduates (REU): A Cyberlinked Program in Computational Biomolecular Structure and Design
 - Summer Institute for Genomics and Society

The application for summer 2020 will open on November 10, 2019 - application deadline will be February 1, 2020

Summer 2020 dates: May 24 – August 4, 2020

Specific information on each of our divisions can be found here:
