STEP Intern 2022 - First Year

We have an amazing internship opportunity for First Year students majoring in Computer Science!

Our STEP (Student Training in Engineering Program) is an internship for first and second-year undergraduate students with a passion for computer science. Students must be available in the United States for a 12 week, full-time internship from May to August or June to September 2022. The program provides developmental opportunities for students from groups historically underrepresented in tech through technical training and professional development.

Below, you will find resources to help you navigate our recruiting process. You can also find all our open roles at google.com/students, and our October virtual event series at g.co/careersonair.
